

# “BUY A FOREST” CAMPAIGN 2010

## REGISTRATION FORM

### THE “WHY”

One of the biggest problems currently facing orangutan rehabilitation centres, is the increasing difficulty in finding suitable, protected rainforest into which rehabilitated orangutans can safely be released. The Orangutan Foundation International runs the Orangutan Care Centre and Quarantine facility near the small village of Pasir Panjang in Central Kalimantan. With over 330 orangutans in their care, they have earmarked 1000 hectares of forest nearby the centre, that they would like to acquire for those orangutans which are ready for release. So far they have managed to purchase 300 hectares and so still have a long way to go before reaching their goal. Orangutan Aid would very much like to help them to achieve this, and we have therefore launched the “Buy a Forest” campaign.

### THE “HOW”

We have calculated that 1 hectare of forest costs in the region of HK\$5000. This is the amount that you would be asked to raise over the coming months, if you register for the campaign. You will be given one of our numbered “Tree” banners to assist you in your fund-raising efforts. Our aim is to have at least 50 banners registered. How you decide to raise the funds is up to you. At the end of the campaign we will ask all those registered, to attend a function with their banners, and to hand over the funds which have been raised. We anticipate this to be around the end of April 2011. Please allow at least 1 week from registration for the banner.
